Project: **Oldham Town Hall**

“ I worked with Ornate Interiors for approximately 15 months on a very challenging project for Oldham Council, the project was the refurbishment of their old town hall building. I have nothing but praise for Ornate's approach to all aspects of their works including quality, safety and working collaboratively towards the programme. The works they completed were to a very high standard and were praised by both the client and the heritage officer. The professional attitude and knowledge of the management reflected throughout their company to operatives on site.

I would not hesitate in employing Ornate Interiors on similar projects in the future. ”

“ It is unique, there isn't a cinema like it in the country. At the same time the setting is amazing. The fact that so many of the original features of the building have been either restored or retained is very impressive. ”
